

## COVERWRAP TEMPLATE EXPLAINED

*The coverwrap template is for a hardcover book with a printed cover.*

The coverwrap wraps over the board and is pasted to the inside covers. The endpapers are pasted over the edges to the inside covers.

*Star Print Brokers* will provide you with the measurements.

The coverwrap document set-up size should be:  
 width = Overall Width  
 height = Overall Height

Use gridlines for layout measurements. Don't draw boxes unless it's part of the design.

When making the PDF, use all printer's marks including:

- crop marks
- registration marks
- color bars
